Michael Latz
Chairman
Illinois Workers Compensation Commission
100 W. Randolph Street, Suite 8-200
Chicago, IL 60601

Dear Chairman Latz:

Lawsuit lending is an important public policy issue for the U.S. Chamber Institute for Legal Reform (ILR) and a national coalition of business groups. ILR is an affiliate of the U.S. Chamber of Commerce dedicated to making our nation's overall civil legal system simpler, fairer and faster for all participants.

It has come to our attention that various lawsuit lending firms are marketing and providing loans to workers compensation claimants in Illinois. As you are aware, the Illinois Workers Compensation Act expressly prohibits assignment of any *payment, claim, award or decision*. (820 ILCS 305/21)

In our view, any lender issuing loans in return for payments from Illinois Workers Compensation claims is doing so in violation of the Illinois Workers Compensation Act. We formally request that your agency conduct an investigation and review of this potential violation by consumer credit lenders. (I am enclosing a sampling of marketing material being distributed by lawsuit lending firms operating in Illinois soliciting Illinois workers compensation claimants.)

Consumer lawsuit lending lacks regulation and transparency, harms consumers by hiding excessive fees and interest rates, and abuses the judicial system by prolonging and inflating lawsuits. The lawsuit lending industry's attempts to evade consumer loan

laws and banking regulations are drawing scrutiny from attorneys general and other interest groups. Both the National Black Caucus of State Legislators and the National Hispanic Caucus of State Legislators passed resolutions late last year calling for the lawsuit lending industry to be subject to the same disclosures, regulations, and consumer protections as conventional lenders and banks.

We are hopeful that following your investigation and review of this potential violation you will communicate this point to the Commissioners, Arbitrators, claimants and potential claimants practicing before the Commission.

Your public service is greatly appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Lisa Rickard". The signature is fluid and cursive, with a large initial "L" and "R".

workers' compensation injury settlement, you don't repay this advance!

Work comp pre settlement funding can give you access to a significant portion of your workers' compensation settlement right now with no waiting. And since it's your money, you can use it any way you choose: pay bills, rent, car payment - whatever you need the money for right now.

One of the chief complaints about state workers' compensation board proceedings around the country however is that people who are waiting for worker comp insurance settlements say they can be notoriously slow and very frustrating.

Eligibility List - These States ARE Eligible For Funding

3 conditions **MUST** exist in order for you to be eligible for an advance:

- 1). You must be represented by a contingent fee attorney.
- 2). You must have an accepted case (not rejected by WC board).
- 3). The state where the incident is venued must appear on the list below ("venued" means the state where the incident occurred and is being litigated).

If all 3 conditions are not fully met, **YOU ARE NOT ELIGIBLE FOR AN ADVANCE** and should not apply. Applications not meeting all 3 requirements will be discarded without further notice.

Alabama Alaska Connecticut Delaware Florida Georgia Illinois Idaho	Indiana Iowa Kansas Louisiana Mississippi Missouri Montana New Hampshire	New Mexico Ohio Oklahoma South Carolina South Dakota Vermont West Virginia

There is only **ONE EXCEPTION** to this rule:

If, in addition to your WC case, you also have a separate 3rd party lawsuit (premises liability for example) that is being handled by either the same or a different lawyer, and there are **SERIOUS INJURIES** associated with it, we can usually fund against that case.

For questions about this, call us at 1-877-932-2828.

Workers' compensation is notorious for taking a long time to finalize these settlements. But since you are likely out of work and not earning a full income, chances are good that you're running out (or have already run out) of money. This is where workers' comp loans can be a big help. A workers' compensation loan is not really a loan at all - it's a non-expense cash advance on your pending worker's comp settlement that gets paid back when your case settles.
